Telegrams.

HAVAS.

FREYCINET AND MELINE.

Paris, 20 (late)—The President of the Republic called on M. Freycinet to organize a Cabinet, but the latter declined to give any definite answer without first conferring with his party.

Paris, 21.—The latest rumour current in the Elysee is that M. Meline has accepted the task of forming a ministry, in which M. de Freycinet will figure.

MELINE AND FREYCINET ON THE LOOKOUT.

THE COSSACKS IN ABYSSINIA.

PEACE AT BOKHARA.

Berlin, 21.—The "Cologne Gazette" says that Germany will demand from the United States the punishment of Klein, the leader of the partizans of Mataafa in Samoa.

Tangier, 21.—There is a rumour that the Sultan of Morocco has ceded a strip of coast near Algeria to Germany, which intends to found a naval station there.

London, 21.—Colonel Saunderson declared at an Orange meeting in Portadown, that he was authorized by leading officers of the army to say that British troops would never act against the Loyalists of Ireland. He added that, the moment there was any probability of an Irish Home Rule Parliament being established, the men of Ulster would put 50,000 men well-armed and disciplined in the field within a fortnight.

Washington, 21st.—President Cleveland appended yesterday his signature to the Nicaraguan Canal Law.

Brussels, 21st.—It is stated that Lord Lytton, British Ambassador in Paris, has informed Lord Salisbury that General Boulanger would oppose any policy tending towards war with Germany, but would certainly provoke Great Britain the moment he got into power.

London, 21st.—In the speech from the throne at the opening of Parliament, the only statement of importance was that measures and improved methods would be adopted to strengthen national defences.

Goschen, Chancellor of the Exchequer, wants the question on bi-metallism opened at once in Parliament.

Paris, 21st.—M. Freycinet, Minister of War in the Floquet Cabinet, has accepted the task of forming a new Cabinet. It is expected that he will succeed.

President Carnot held a conference with Senator Fuye and discussed the possibility of forming a Senatorial Cabinet. After this meeting, the President called in M. Freycinet who begged for time to consult hisfriends.

M. Freycinet talked matters over with ex-Premier Floquet and then returned with M. Meline to the President, stating that he was prepared to spare no efforts to relieve the country of the present political uncertainty.

M. Freycinet maintained that in his opinion, the presence of M. Meline as Premier in the Cabinet was indispensable.

M. Meline finally gave in and accepted the proposition.

Both are now actively engaged in the formation of the new Cabinet, in which M. Freycinet wishes to continue as Secretary for War.

Vienna, 21st.—In his estimates for 1889 the Minister of Finance calculates a surplus of six million florins.

St. Petersburg, 21st.—The Atchinoff Cossack expedition to Abyssinia will receive a fresh contingent of three hundred men in spring.

Telegrams from Chard-jui announce that the Emir of Affghanistan presided over the trial of rebels caught in the Isak-Khan rebellion.

The Russian column at Kiski is ready for active campaign.

Rumors that Affghans intended attacking Russians at Bokhara are denied.

THE OBRAS PUBLICAS BOARD.

NEW MANAGER OF NATIONAL BANK.

President Juarez leaves to-morrow at eleven o'clock.

The Ministers, Senate, Deputies and head officials will all meet at the Government House to see him aboard.

Dr. Reus arrived to-day and was welcomed on 'Change, where a new list of Directors of the Obras Publicas Company, with Mr. Casey as president, is going the rounds. A meeting will be held to-morrow to decide.

The shares are quoted at 33, and National Bank Shares at 149.

Mr. Charles Gowland, named to the post of manager of the National Bank, has accepted for the time being, until he starts for Europe.

Grand banquet of 160 covers to President Juarez this evening by President Tajes in the Public Instruction Hall, to be followed by Sambucetti's concert in Solis Theatre.

WEST COAST TELEGRAMS.

CHILE GETS OUT RANGE CANNONS.

A BOLIVIAN PRELATE DECLARES WAR AGAINST FREEMASONRY.

Valparaiso, 21.—The Atlantique has arrived with the Bauge cannons purchased in Europe by the Chilian Government by way of experiment in the fortresses on the coast.

Telegrams from Bolivia state that at a Cabinet council it was decided to organize special revenue-committees in the Provinces.

The Archbishop published an edict calling a provincial council with a view to take measures for the extirpation of free-masonry. Free-masons are very numerous in Bolivia.

THE IRISH IMMIGRANTS.

Yesterday the British Immigration Committee held its meeting at the usual hour and place, Mr. John Drysdale in the chair. The attendance was large. Mr. Gartland presented an exact list of the utensils required for each family and which the Committee must supply before the people leave for the colony. After some discussion, it was finally arranged that Mr. Gartland should at once proceed to buy all those necessaries and send the account to the committee who pay for same. The printed contracts, in English, were brought from Mr. Kidd's office, and a committee of three gentlemen named to take the papers to the families for signatures; Messrs M. Dineen, Father Gauchran, and Mr. F. H. Mulhall, from the Committee. Mr. E. T. Mulhall informed the meeting of the interview yesterday with H. E., Vice President Pelligrini. Mr. Christie, of the Dairy farm, stated that if there was anything certain known as to the number of families unemployed and the wages to be paid, he would bring the matter before his directors. A letter was read from the rector of St. John's church, also offers from Mr. Seedorf to supply the families leaving for the colonies with a box of medicines. A special vote of thanks was passed to Mrs Lace for her untiring exertions on behalf of the women and children.

The following is the form of contract with Mr. Gartland:—

CONTRACT

For the establishment of the new British Colony at Bahia Blanca.—

It is hereby agreed between Don Pedro A. Garland on the one hand and.....

.....

on the other:

Art. 1st.—Don Pedro A. Gartland in representation of the Argentine Vine-Culture Company, by whom he has been duly empowered for this effect, transfers the right and property of four hundred Chacras (small farms) of its lands in Bahia Blanca to an equal number of agricultural families at the rate of eighty dollars (80 m/n) per Hectarea nominal value in Cedula Serie N. of the Provincial Mortgage Bank transferring on account or in full payment thereof a portion of the debt which the Company owes to the said Mortgage Bank of the Province: furthermore the Argentine Vine Culture Company binds itself to provide the Colonist during one year with provisions, seeds, tools, housing and animals, in the form and proportion hereinafter expressed, to the amount of ($1000 m/n.) one thousand dollars national money each family at a charge of (9 o/o) nine per cent yearly for interest and administration. The Argentine Vine-Culture Company reserves to itself the right to arrange at any time with one of the Banks, on the Guarantee of the Company, an advance of one or two thousand dollars for each of the said Agriculturists and which shall be received by the Company in payment of the provisions, seeds, housing, implements, animals &c. aforesaid supplied them during the year: in which case no more interest will be charged than the Bank rate plus (2) two per cent for administration expenses. In case the Company does not give its guarantee then it will only recover the actual outlay leaving the colonists at liberty to administer the balance.

Art. 2nd—Should the mortgage transference not reach the full amount of the purchase price the difference will be charged to each agriculturist at the same rate of 9 o/o (nine per cent.) annually as the other advances, and which shall be liquidated each quarter, the families paying for same by the ¼ result of the sale of their crops.

Art. 3rd—The colonists and their luggage together with such tools and implements as the Company shall furnish them, must be conveyed at the cost of Government, to the lands of the Argentine Vine-Culture Company, situated in Bahia Blanca along the Southern Railway track between kilometres 679 and 684.

Art. 4th—Settlers must draw lots for their farms, the title-deeds for which shall be immediately drawn out and delivered over to each by the agent of the Company.

Art. 5th—The Company to supply each settler with the following provisions: daily ration for each person: one kilo of meat, a quarter kilo of bread or biscuit or the equivalent in flour, two ounces of rice and half an ounce of salt for twenty-eight cents per day and per head.

Monthly rations per head: two kilos of soap, four kilos of yerba mate (native tea), one kilo of tobacco and eight sheets of paper for one half dollar per head per month, besides an extraordinary allowance to those who may require it of ½ an ounce of coffee, one ounce of sugar and three sticks (astillas) of firewood for fifteen cents paper money.

Art. 6th.—Each colonist will be provided with a book in which shall be noted whatever goods and advances of any kind have been made from time to time expressing the amount and value of each item.

Art. 7th.—The aforesaid gentlemen hereby compromise themselves that the English and Irish colonists, per s.s. Dresden, accept the foregoing clauses and guarantee morally their due and proper fulfilment of same.

Art. 8th.—Said gentlemen likewise bind themselves to procure ..... tents during..... days, for the accomodation of said settlers and their families on their arrival at the ground and during the construction of their respective houses.

They likewise undertake to supply food to said colonists and families during the first five days of their arrival on the ground.

Art. 9th.—Both parties agree to extend all the benefits and obligations expressed in the eight preceding articles to such a number of artisans as may be found necessary to the working of the colony.

Art 10th.—This contract shall be drawn out by a notary public in proper legal form. And in conformity and proof thereof we both sign in the one tenor and accord.

Buenos Aires, Febuary ..... 1889.

The following is the Revd. Pelham Ogle's letter:

St. John's Anglican Church.
25 de Mayo, B. A.
21st. Feb. 1889

The President of the British Emigration Committee.

My dear Sir,

I have not volunteered to be of any assistance to the British Emigration Committee because my as yet scant knowledge of the country hardly warranted my offering myself uninvited. But where I can be of use I shall be only too pleased to do what lies in my power.

Visiting among the emigrants in the Rotunda at the Retiro station, among some other matters that might call for action on the part of our new Committee, I note the absence of an English speaking doctor. For instance a sick woman told me that she was not able to explain herself to the medical attendant there and therefore met only with a gesticulating shrug of the shoulders.

This is a matter that could so easily be provided for in the future that I venture to formally bring it before your notice.

I am,
Very faithfully yours
Pelham Ogle
Rector of St. John's Church.

The Committee of British Immigrants Protection Society acknowledge receipt of the following contributions per S. Johnston:

Tornquist & Co.,	6 pairs	blankets.
Bates Stokes & Co.,	5 do	do
Macgregor Aitkin & Co.	5 do	do
Snell & Co.	3 do	do
Alexander Maclean	a quantity of tea, Port wine, sugar and corn-flour.	
Café Paris	a quantity of cooked provisions, tea, coffee, etc.	

Before the meeting rose the Secretary was requested to notify the English-speaking ladies, that the offices of the committee will be open from an early hour this morning to receive whatever old clothes, blankets, &c. can be spared for the poor women and children, some of whom are most destitute. The offices are 365 Calle Reconquista. The committee has engaged the services of a competent party to accompany the emigrents in the train and remain with them on the land for 15 days. Mr. Drysdale had an interview with Mr. Sam Abbott, who has promised to do everything possible for the immigrants in forwarding by the Great Southern Railway the materials for building their houses.

The meeting adjourned to 3 o'clock today.

THE NITRATE KING.

PARIS IN EXPECTATION.

London, Jan. 12th.

Nothing has been spoken of for some days but Col. North's ball at the Hotel Metropole, at which all the wealth, fashion and celebrities of London were present. It is said that the flowers alone cost £2,000 The ball was a magnificent success, and attained the end desired by Col. North, a footing in good society: his name is on the list at the Carlton Club for the next election of members. Great wealth and strong Conservative opinions can do much in England. You have only to say that Cobden was a low scoundrel, Sir Robert Peel a traitor, and that Free Trade is the curse of England: all the aristocracy of England will admit you as a friend and equal. I cannot say if Col. North is sufficiently orthodox on these matters to please the Carltons.

Mr. North is, I believe, a tobacconist of the City, who derives his title from some volunteer regiment. He is reported to have made a fortune of eight millions sterling, in six or seven years, by making large ventures in nitrate, and hence is known as the Nitrate King. The other night, when receiving his guests, he was attired in the costume of Henry VIII., which surprised some people. This reminds me that fashions are wavering. Only last week Mme. Carnot received at a party at the Elysée a certain Madame Dugueuan, wearing man's dress. In England the lady in question would have been sent to prison for a misdemeanour.

But to return to Col. North. He has "enthused" Londoners about Iquique and the nitrate business, and it is said Lord Randolph Churchill leaves shortly for the West Coast to study it personally. An Englishman asked me the other day "where was Ikkick?" and in the way he pronounced it I could not at once understand him. I have no doubt that if the lands of Tarapacá be properly pushed in the market you will see millions sunk in them.

It is only fair to add that Col. North has done many generous acts with his newly-acquired wealth. Last week he bought the ruined Abbey of Kirkstall for £10,000, and presented it to his native town Leeds, with some land adjoining, to form a people's park. He is causing a great sensation, for it seems he is the first Englishman who has made so large a fortune in 6 or 7 years, and by straightforward industry. Gould and Vanderbilt have accumulated great fortunes in the U. States, but there was a watering-pot or something peculiar in the business. Not so with the fortune of the Nitrate King.

Paris, January 14.

Seeking a warmer clime in this severe season we crossed the Channel yesterday bound south, and had something like a "blizzard" in our teeth. I may observe that although we had no snow in London the whole country south of Sydenham, as far as Tunbridge, was wrapt in a dense snow-wreath. The same may be said of the north of France till we reached Amiens.

Paris seemed to me less brilliant than formerly; fewer people in the Boulevards. But there is feverish excitement over the coming election, Gen. Boulanger having covered all the dead-walls and hoardings with immense placards, except those already secured by his rival, a brewer named Jacques, perhaps some relation of the gentleman of that name who had such a mournful end at Buenos Ayres.

This Mr. Jacques fires off artillery in many-colored posters against Boulanger, and winds up by calling him a tool of the clergy. It sounds very odd to any but a Frenchman, seeing what an enemy Boulanger has been to anything connected with religion. But, we may some day hear that Gambetta was a disguised Jesuit, for his tirades against priests and churches made them more respected. At all events you cannot walk ten paces in Paris without Jacques and Boulanger staring you in the face.

Boulanger says: "Turn out the thieves who have been fattening and battering on the plunder of France for the last ten years." This is the strong point of his harangue, and he lays emphasis on the "gaspillage" that has gone on too long. He says nothing about the traffic in the Legion of Honor. He protests that he has no idea of becoming Dictator, but merely wishes to call a Pebiscite and abolish the present effete and dangerous system.

On the other hand Jacques, whose manifesto reminds me of Shakespeare's "melancholy Jacques," has nothing original to say, and contents himself with bidding Parisians beware of the would-be Dictator, who would plunge France in fresh troubles; culminating in another Sedan. All the respectable journals in Paris, and all the correspondents of the *Times*, *Daily News* etc. agree that Gen. Boulanger has no chance at the coming election, which is fixed for the 27th inst. Some put Jacques' probable majority at 90,000, others at double that figure.

Nevertheless it seems to me that Boulanger has the better chance. His adversary is quite an unknown person, backed by all the strength of the Government, and not by the people. I observe that his placards are torn, while those of Boulanger are not. If the latter wins, the present Government may as well retire, to avoid perhaps a military revolution. At present M. Carnot and his friends have more prestige in England than in France. They are completely "played out" here.

M. G. M.

LONDON LETTER.

FINANCE.

(From our own Correspondent.)

Jan'y 19.

The raid on Argentine credit is continued by your contemporary, *Money*, which this week contains a fierce attack on Mr. Pacheco's "State Banks". It is satisfactory to know that the ordinary business in the Stock Exchange is not much affected by your contemporary's lucubrations, for Argentine securities, including Cedulas, have within the last day or two slightly improved.

What *Money* has to say is in this instance very well said, and quite according to the approved canons of political economy. The writer of the article seems to have had the Pacheco banking act in his hands, and, comparing the promises of the Argentine Government with the reality as we see it now, after a year's experience of the working of the act, he pronounces it to be a failure. He acknowledges the possible validity of the guarantee which exists in the deposit of National bonds against issues of notes, the corresponding amounts of gold remaining in the hands of the Government, but he, perhaps, remembers Mr. Pacheco's assurance that the Argentine Government was neither a banker, a merchant nor a broker, and finds by the recent manipulating of the gold market by the Government that it has proved itself to be all these things. *Money* tells us, and tells us truly, that there is only one way of reducing the premium on gold, and that is by restricting the issues of paper. *Money* may not be perfectly informed as to the amount of existing issues, or as to the extent to which the Argentine banks have as yet been able to benefit by an Act not much more than twelve months in existence, but your contemporary's theories are sound and well put and quite worthy of your notice. It seems to hold very pessimistic views as to the future of Cedulas. A better local knowledge might have led to more hopeful opinions, but the clear and careful way in which it traces the smooth and apparently beneficial working of a depreciated paper currency in the internal dealings of a country, to the point when exchange, regulated by the necessity of paying external debts in gold, turns sharply against it, and exports of gold commence, is quite scientific and leads it easily to the question of your chief security—the land. On this point, you are not alone in your difficulties.

The *Financial Times* says: "Some weeks since we uttered a solemn warning anent the reckless gambling in land which is now at its height in Australia, and especially in and around Melbourne. That warning meets with ample justification in the startling communication to which our contemporary the "Statist" gives prominent place. The facts are undoubtedly as stated by its Melbourne contributor, who anticipates a crisis any day. What are we to think, then, of the policy pursued by the directors of sundry banks and insurance offices with headquarters in London, who within the last twelve months have advanced enormous sums on the security of absurdly appreciated house property and land in the new continent? In two instances the amounts so invested are stated to exceed a million and a half sterling, whilst several other companies are known to have lent money to the Australians in like proportions to their assets. It is sincerely to be hoped that shareholders and other parties interested in the welfare of these institutions will stand firm in resisting this suicidal policy, which must result in severe losses being incurred."

These two contemporaneous and independent warnings are interesting and directed against occurrences that are at least possible. You cannot compare yourselves with France, which amid invasion and disaster in 1870 maintained her inconvertible paper at ½ to 1 per cent discount. You cannot compare with England, where a perverted Hebrew Chancellor of the Exchequer might with impunity bargain his 2½ per cent "Goschens" against the bankers' light gold they have to keep in their tills. You cannot compare yourselves with the wealthy United States, where between financial disaster and the bare soil there is the resisting medium of a splendidly organized society so brilliantly and so recently described by Professor Bryce; but, making allowances for a certain variation in conditions you can compare notes with Australia, and if we never hear any more of the predicted crisis in the "Lone Land," we can hope the same of what the *Times* in its review of the past year politely called South America Yankeeland. A piece of impertinence by the way suggested by the spite of a newspaper which had once foolishly alluded to "those republics" as needing "rediscovery." I must add for your comfort that, if the predictions of our financial sages are ever right at all, they are an inconceivable time in process of fulfilment. We have been told by all the best authorities that money at this date was to be dear. As a matter of fact it is dirt cheap. We are now bidden to look forward to the early spring for the justification of their former prophecies.

The leading financial journals of to day contain few allusions to Argentine questions. They seem to anticipate a renewal of the drain of gold for South America, but you must understand that the writers in our best financial papers are prompted by the "haute finance," and there is an evident disappointment in that quarter in regard to the ruling "ease" which, we are now told, is a bad sign. If business were depressed it would be, but that is not now the case. So we are referred to the eternal bugbear, the uncertainty as to peace or war." As for Mr. Giffen's paper, the *Statist*, it is quite cynical in its frank avowal that nothing good can be expected until the Bank of England regains its lost ascendency in the money market, and if that end is attained and Mr. Goschen can only succeed in his scheme of issuing one-pound notes for the release of the 50 millions of light gold in the banks, that millennium, for which all good discounters pray, will arrive when we shall be blessed with an increased volume of business and higher rates.

THE TIGRE HOTEL.

Quietly, unostentatiously, with no noisy advertisement, there is rapidly springing out of the ground a monster hotel at the corner of the rivers Lujan and Las Conchas. The erection of this long required hostelry will go very far to revolutionize the neighbourhood of the Tigre, and will no doubt affect society generally down there as well as in the city of Buenos Aires; for there is no suburb of this metropolis so pretty or so promising, and every encouragement should be given to men of enterprize, such as the few gentlemen who form the Syndicate which is supplying what we might almost say, a national want.

Nearly everyone of our residents has visited the Arsenal on the Lujan, and every boating man and his sweetheart knows the Avenida Victorica which, bar none, is the prettiest spot within a hundred leagues.

Loud complaints have been uttered year after year at the utter lack of accommodation at the Tigre both as regards the ordinary refreshments of a one day excursionist and that of sleeping apartments for would-be sojourners. It seems surprising that the idea of building even a small hotel or lodging house had not been mooted long ago for this favorite resort. Now, we suppose, with a really swell hotel and the new line of railway having a station within a stone's throw, the Tigre will, more than ever, be the fashionable place for a "paseo." At the present time many of our wealthy and talented leaders of society have private summer residences there.

The scenery is lovely. "Water, water,„ (the Poet of Nature) is "everywhere", and, filtered, there are many "drops to drink." The willows and poplars remind one of the Thames at Maidenhead and Oxford. The undergrowth is, perhaps, too thick and too strong, thus harbouring those frightful insects, the mosquitoes, but even this pest can be grappled with by men of science and common sense.

The façade of this hotel, destined, perhaps, to mark an era in the history of this country, as did the "Bristol" at Mar del Plata, is in the only English style of half-timbered architecture. The edifice proper is very much on the same principle as the "Bristol", but larger. That is to say, the first hotel opened on the 1st January, 1888. The large dining-room is 19½ metres long by 10½ wide—the restaurant 9½ by 5½—billiard room 16½ by 9½—ladies saloon 9½ by 9½. Two large staircases leading to the upper floors are 8.35 by 4.20. There is a barber's shop, baths, grand mostrador, baths, lavatories, &c., &c.

There are thirty-nine principal "dormitorios" on each floor with private bath-rooms, and, also, suites of apartments for private families.

The kitchen and administration department seem to us to be excellently arranged, and so far as the future of the hotel is concerned, and as it is to be placed before the public, it only remains to be added that all the furniture and effects have been ordered, and will shortly be on the way out from England. Naturally, it will occur to many of our readers that the foundations on this swampy land need particular attention. We can only state that no less than 64 wells were sunk, varying in depth from nine to four metres, which were emptied of water and then filled in with solid brickwork, and on this the new Tigre Hotel will safely stand, let us hope, for generations; a credit to the country and all concerned in its erection.

The iron "tirantes" for the "piso bajo," which is two metres above the ground, are now being laid, and the architect and contractor both confidently believe that the first of October will see the opening day of the newest and best hotel in the Republic. We all hope that this will be the result of a bona-fide enterprise tending towards the public good and advantage.

Architect.

BRITISH EMIGRATION.

London, January 12th 1889.

Dear Sir,

As I have all along been much interested in the Government scheme for emigration from Ireland, I wish to solicit your support with the authorities for the reception of the Irish families, about 250, now on their way to the Republic.

I have an idea of the care with which their selection has been made by the agent in Dublin with regard to their suitability for the country and their previous employments. The applications are the result of extensive advertisements, and a judicial circulation of pamphlets containing all desirable information for emigrants.

These families are chosen from the agricultural and artizan classes, and will be a valuable acquisition to your country, whose prosperity depends upon an emigration-population for the development of its resources; as is abundantly demonstrated by this element in the United States, whose Government was the first to foresee and utilise these schemes, and is now in full benefit of the enterprise. The results for exceed the efforts put forth by the Government of Canada.

The desire of those who have the enthusiasm of the scheme at heart is that these willing hands, on arrival, should receive attention and special care, until they are forwarded to their destination; in order that from the welcome they receive, and the facilities rendered to them, they may contentedly and encouragingly commence their new life; and, by communicating with their friends at home, induce others to follow them in rapid succession, thus swelling the tide of immigrants and transferring a surplus population to the mutual benefit of both countries interested in the exchange.

Yours faithfully,
Argentine.

CHILIAN STATISTICS.

TRADE DURING 1887.

The *Estadistica Comercial* for 1887, compiled under the direction of the Chief of the Statistics Office, Juan B. Torres, and recently issued from the Universo Printing Office, contains a large amount of interesting matter relating to the trade of the country. The value of the coasting trade in the year just mentioned is given as 167,430,410 dollars, being an increase of 14,684,906 dollars as compared with 1886. The value of the imports and exports in 1887 was 120,474,277 dollars, or 20,247,818 dollars more than in 1886. The imports, by sea and land, amounted to 57,760,780 dollars, being a decrease of 9,970,394 dollars as compared with 1886. The exports amounted to 62,713,497 dollars, or 10,277,424 dollars in excess of 1886. The total value of the imports and exports in 1887 was the fourth highest of any year in the septennial including that year, as may be seen from the following table:—

	$
1881.....	108,878,163
1882.....	126,674,193
1883.....	138,662,099
1884.....	129,388,946
1885.....	94,567,251
1886.....	100,226,599
1887.....	120,474,277

The value of the imports was 48,630,862 dollars, being an increase of 4,460,715 dollars as compared with 1886. In the increase textile fabrics figured for 1,791,077 dollars; raw materials for 1,335,027 dollars; machinery and tools, 1,402,251 dollars; railway and telegraph materials, 593,038 dollars; household effects, 433,147 dollars; and miscellaneous, 1,321,998 dollars. There was a falling-off of 2,124,982 dollars in cattle, sugar and coffee, principally in the first, owing to the closing of the Andire passes during the cholera. The exact figures are as follows:—

	1886.	1887.
	$	$
Cattle	3,788,080	1,796,413
White & brown sugar.....	2,999,748	2,286,160
Cotton.....	385,367	317,848

The proportion of imports corresponding to each of the six principal importing nations are as follows:—

	1886.	1887.	Increase	Decrease
			o/o	o/o
G.Britain	16822809	20463584	21·64	...
Germany	8346210	11631891	39·46	...
France...	5792305	5500949	...	5·03
U. States	2623172	3242314	23·60	...
Peru.....	3611576	2670548	...	26·05
Arg. Republic..	4125092	2217147	...	46·25

The value of the exports was, as already stated, 62,713,497 dollars, being an increase of 10,277,424 dollars over 1886. Of this increase 8,309,809 dollars corresponded to exports proper, and 1,967,615 to merchandise "in transitu". Of the increase of 8,309,809 dollars Great Britain took 75 per cent and Germany 25 per cent. The mining products which contributed most to the increase were nitrate, silver, gold ore, manganese, copper, regulus, borax and coal. On the other hand there was a falling off in guano, bar copper, argentiferous regulus and iodine.

Railway Items.

INSPECTORS' REPORTS—SOME FIGURES ABOUT THE ARGENTINE GREAT WESTERN AND OTHER RAILWAYS—THE B. AYRES AND ROSARIO LINE.

Yesterday Inspector Pinto's report on the Pacific Railway was received. The Inspector is in Mercedes and says that the greatest irregularity continues to prevail in the working of the line. The manager cannot be blamed for this lamentable state of affairs, since the real cause of the delays etc. may be traced to wretchedness of the bed, which suffers by every shower of rain. This is an old story, and we may expect to find it in the Inspector's reports for some time to come, for as he observes the line will not be in proper working order for many months. Yet the company are doing their best to restore order. Very considerable bodies of men are constantly at work repairing and ballasting the line. Mr. Pinto's report is short, sweet, and to the point.

Mr. Figueroa writes from Parana to Dr. Araoz giving a detailed account of the working of the Central Entre Riano. But for the injured state of the road-bed, he says that the net earnings last month would certainly have been over 10,000 dollars. This is a very high amount, when we consider that the net earnings of the Primer Entre Riano during the same month were some hundred dollars. Better this than a deficit, although we are certain our readers will smile at the insignificance of these returns. The Central Entre Riano turned in 2008 dollars, which falls somewhat short of Mr. Figueroa's estimated returns. We must remember, however, that goods' traffic was completely paralysed from 23rd January to 11th inst. In that interval, moreover, the passenger trains ran without regard to time-table. The fine weather now will no doubt enable the indefatigable manager to repair the bed of the line, if not thoroughly, at least in such a way as to remove the delayed waggons at the stations. We wish the manager better luck this month.

As already observed in the foregoing paragraph the net earnings of the Central Entre Riano last month amounted to $2,008, the gross returns having been 26,117,64 dols. and the working expenses 54,109,34 dols. a proportion of over 92 per cent. The Central Entre-Riano has 280 kilometres open: the net earnings were; therefore, nearly 8 dollars per kilometre. The gross returns kept up pretty well, considering that only last year the figures for the same month were 20,159 dols. The increased expenses, owing to the damages occasioned by the rains, have reduced the profit-margin to a very considerable extent. The kilometrage run last month amounted to 110,286.

The kilometrage run by the Argentine Great Western during October, November, and December, of last year was respectively 49,713, 27,837, and 30,976.

Mr. Pirovano's general weekly railway report was sent to the Home Office yesterday. It merely calls attention to the beds of the Pacific, Central Northern and Central Entre Riano Lines. Mr. Pirovano deals a mild blow at the Argentine Great Western, which, as usual, has no respect whatever for its time-table.

Mr. Browne, C.E. has completed the surveys of the San Juan and Chumbicha Line, length 530 kilometres.

The Alsina Bridge is again going to rack and ruin. The Board of Public Works have applied for 1500 dollars to begin immediate repairs.

A correspondent in the Railway *News* of Jan. 19, directs attention to the fact that under the conditions upon which the seven per cent. preference shares were issued in 1884, they are convertible at any time within five years after February 1, 1886, into ordinary stock. A similar provision also exists with respect to the Sunchales preference seven per cent., which are convertible at any time prior to June 15, 1892 into the ordinary. The total amount of these two stocks is £1,500,000. The dividend paid on the ordinary stock for 1887 was 8½ per cent. There is good reason to believe—seeing that the traffic has increased during 1888 by £113,000—that a substantial addition to dividend may be anticipated. But it should be borne in mind that about £450,000 more capital will rank for such dividend in 1888 than 1887. Indeed, 9 or 9½ per cent. has been confidently spoken of, and sanguine estimates of the future of the line make out dividends of even 15 per cent. The directors, however, will, no doubt, seriously consider the propriety of needlessly attracting the notice of Government to the prosperous condition of the company. Such high rates of dividend might—and not unreasonably, perhaps—lead to some request on the part of the authorities for a revision of rates and some additional facilities for the convenience of the public The point of practical intrest for the proprietors is the advisability of converting a stock bearing a fixed dividend of 7 per cent. into one now paying a higher rate, with a prospect of still larger returns in the future. The original capital of the company consists of the £1,500,000 of preference, and £500,000 of ordinary stock. At the end of June, £340,000 of the preference had been converted, and the amount of ordinary had consequently been increased by the conversion to £340,000. If the whole amount were converted the stock of the company (all ordinary) would stand at £2,000,000. It is scarcely necessary to point out that profits which would realise the sanguine estimate of 15 per cent on £500,000 of ordinary would not pay the same luxurious rate upon a stock four times that amount. During the past half-year the conversion has made further progress, and we believe the ordinary stock now amounts to about £900,000—an amount which will no doubt be considerably augmented before the dividend for 1888 is declared.

The Government has approved the contract entered into by the Engineers' Department with the Societe de Construction de Batignolles, concessionaire of Portalis Dupont & Co., for construction and working of a line to be called the North West Argentine, from Villa Mercedes (San Luis) to the city of La Rioja, the 12th provision being modified as follows:—

The Government guarantee for the term of contract 5 o/o on a capital of 13,837,500 dollars, this sum corresponding to a total extension of 615 kilometres of line of which side or branch lines must not exceed 5 per cent of the total extent. Should the line exceed 615 kilometres no extension will be made in the guarantee, but should the line prove shorter the difference in cost will be deducted, calculating at 22,500 gold dollars the kilometre. The line will pass by San Jose del Morro, Renca, San Pablo, Dolores, Santa Rosa, Carmen (Cordoba,) Milagro, and Chorrucal, terminating at La Rioja.

EDITOR'S TABLE.

The Nord-America brings very late dates from Europe—to 5th inst. This means a sixteen days' passage. She anchored in Montevideo yesterday. Bravo! the old Stirling Castle.

No health news, good or bad, yesterday. The unfortunate passengers of the Atrato were all smoked, like ham or hung beef, when they went on board their quarantine steamers, the Jupiter and Minerva. We can, in our mind's eye, fancy them undergoing the utterly useless operation. We are r

BUENOS AYRES ENGLISH HIGH SCHOOL

This session (1888) ends 20. Dec.
The next session (1889) opens 4th February 1889

NOTE—Enrolment of new pupils for next year now proceeding; early application necessary.

TEACHING STAFF

I. A. W. Hutton M.A., F.E.I.S., Rector
I. Lady Superintendent, Mrs. Hutton, Government certificated Teacher
III. First Assistant, E. Reydams, "Gradué en Lettres" (Brussels University.
V. Second Assistant, A. N. S. Evason, Government certificated Teacher.
V. Third Assistant, J. M. Stanley, Government certificated Teacher (Honours).

EDITORS TABLE.

(Continued from 1st Page.)

A most munificent gift has been made by the well-known millionnaire and philanthropist, J. V. Williamson, of Philadelphia. It is true humanitarian has given the enormous sum of 12,000,000 dollars (£2, 400,000) for the purpose of founding and maintaining an industrial school for boys, to be called the "Williamson Free School of Mechanical Trades," which will be open to all boys without difference of creed or religion. They will receive instruction in the various handicrafts, going through an apprenticeship in accordance with the custom of former times.

The Duchess of Teck is famous for the quantity of "wittes" she can put away. An American was recently speaking of his intention to offer her a pair of canvas-back ducks. "Oh," said an English friend "she would make short work of them; offer her a couple of wild turkeys."

The fashionable residents of San Isidro are reported to be in the same boat as those of Caballito and Almagro, only it is the police who whistle all night and keep them awake, instead of locomotives. The mosquites have also something to say to the bad nights they pass. In fact summer has been rather a failure this year at most resorts, and people are expected back in town earlier than usual.

We extract the following from the London *Referee*:—

"Empty seats at a Patti concert! Such was undoubtedly the case on Tuesday. Probably the reports concerning the prima donna's illness kept some people away; but there was no cause for alarm. Her voice was in perfect order, and her rendering of the air, "La Fille des Parias," "with its Oriental colouring, was remarkable even for Patti. It says much for the exquisite taste of Mrs. Henschel that she stood the scathing ordeal of comparison with the greatest vocalist of the age, and ran her a dead heat. But she did, and whereas Patti took encores after one recall, her sister artist had three, and then firmly declined."

A French contemporary vouches for the genuineness of the following letter from the children of the Duke and Duchess of Connaught, written to their august relative at Windsor so soon as the little people arrived at Bombay last month:—

Grand Hotel
B. Aires, June 30th 1888
Mesrs Samuel Foote and Son Gentlemen,
"Gran Fotografia Parisien,"
Calle Florida.

Gentlemen—I am very much pleased with my portraits and consider them the best I have had taken for many years.

131 9 f28

POR LOS MISMOS

En la colonia AZARA, partido del Baradero magnificas

CHACRAS

para vender y para arrendar todas con cédulas hipotecarias.

El remate se efectuará en el Hotel de las Naciones, plaza principal del Baradero. Base de venta 150 pesos por hectarea.

El Domingo 10 de Marzo,

á las dos en punto de la tarde,

remataremos por órden terminante de su propietario y con la base de venta arriba señalada, 10 espléndidas chacras de treinta hectareas cada una, medidas y amojonadas, situadas en la colonia Azara, partido del Baradero, Cañada Honda.

Cada chacra reconoce una hipoteca de $110 por cada hectarea cédulas de la serie F y M con la cual podrá continuar el comprador pagando la diferencia del precio á que estan en la Bolsa el dia antes del remate. El propietario se reservará terreno para un pueblo que se dividira en lotes y se venderan en remate oportunamente. Al mismo tiempo: rematarémos el arrendamiento por 5 años de estas chacras de 100 hectareas mas ó ménos cada una, y 6 chacras de treinta hectareas por el término de un año. Base del arrendamiento 8 pesos anuales por hectarea.

Esta colonia se establecerá sin acogerse a la ley de Centros grícolas de la provincia; de manera que los compradores no contraen la obligacion de cultivar una proporcion determinada de su terreno y recibiran las escrituras en seguida de concluido el negocio.

NOTA: El ferrocarril sale de la estacion central a las 7.30 a.m.

OTRA: Los planos detallados pueden obtenerse en nuestra casa calle Alsina núm. 482.

OTRA: Para ver el campo puede tomarse el F.C. del Oeste hasta San Antonio de Areco, o el del Rosario hasta el Baradero, La galera sale de San Antonio de Areco pasando por la colonia los dias 1, 4, 7, 10, 13, etc., y regresa del Baradero al dia siguiente. La Colonia dista de San Antonio 40 leguas y del Baradero 8 leguas. El ferrocarril Central Pergamino a Buenos Aires tendra una estacion frente a la Colonia.

Nota importante: Todo comprador sin excepcion entregara al firmar el boleto el 10 o/o del valor de la compra.

273 f6 m10

Javier García de Zuniga

El Remate Deseado

La Villa Maximo Paz

En La Plata

Domingo 24 del corriente

HACE UN AÑO QUE LA

Sociedad Territorial La Plata

Empezo la construccion de una iglesia y conto una veintena de casas, donde figuran magnificos Chalets, bajos y altos; grandes y chicos, hizo plantaciones de arboles en sus plazas, calles y boulevares, acercas en todas las manzanas, en fin formó un pueblo chiche en la entrada de la gran ciudad; pueblo que hoy la entrega para ser vendido, bajo el martillo, á todo precio pagadero en

diez anos por mensualidades

Todo el que ha visitado á La Plata conoce donde esta situado MAXIMO PAZ; nada mas esplendido como terreno; una gran loma, nada mejor como posicion, con la Estacion Maximo Paz; á tres cuadras de la de TOLOSA, cruzado por los Boulevares 19 y 13; por este ultimo pasa el tramway de La Plata á Buenos Aires: los terraplenes de la via cruzan ya la Villa, en frente de la Fabrica del señor Serrano y á tres cuadras de la casa de los señores Freres y Carbonier; á una cuadra del Barrio Serrano, á una cuadra de una escuela publica: á 16 cuadras de los Tribunales, á 38 de la plaza principal de La Plata como si dijeramos el 11 de Setiembre de Buenos Aires, con una Iglesia que será inaugurada el dia del Remate, dicendose una misa cantada por el cura que ha tenido á bien el Sr. Obispo nombrar, habilitando desde ese dia para todo el numeroso vecindario el templo de Maximo Paz.

El Domingo, 24 corr.

saldrán con la concurrencia tres trenes expresos, uno de la Estacion Constitucion á las 9½ de la mañana, otro á las 8.20 y otro de La Plata á las 8 p.m.

Mas detalles mañana.

Los trenes dejarán á la concurrencia en los mismos terrenos donde encontrará un lunch abundantisimo, como para cinco mil personas, carne con cuero, sandwichs, etc. Habrá grandes carpas donde podrá la concurrencia resguardarse del sol.

En fin: todo un dia de campo, un magnifico paseo gratis y la oportunidad de asegurar el porvenir de un hijo con una mensualidad tan insignificante que estará al alcance hasta del ultimo jornalero.

La venta obrera no solamente los solares sino tambien la edificacion, hay terrenos con una pieza, con dos, tres y chalets, preciosos con tres, cinco y seis piezas que igualmente podrán comprarse por una pequeña mensualidad. Hacemos de proporcionarles un dia de placer que nos ha de ser agradecido.

Las ceremonia de inauguracion y consagracion de la Iglesia, será espléndida y digno de verse el abanderamiento, las carpas, una concurrencia que se calcula en no menos de cinco mil personas, donde se encontrará todo La Plata; todo esto es un terreno alcistisimo; invita á los habitantes de Buenos Aires á dejar sus habitaciones y trasladarse á este sorprendente Remate.

Los trenes saldran de La Plata a las 8 a.m., de Constitucion a las 9½ a.m. y de la Estacion Central a las 8.20 a.m.

Por planos, boletos y de mas informes á las oficinas de la sociedad Reconquista 64 y al escritorio del rematador en idem 65, num. nuevo.

122 8 f24

Fines & Lagos

The pick of the CAMP

Soil and situation unexceptional, most interesting affair, tremendous future, 3 hours from the Capital, return the same day.

In Zarate In Zarate In Zarate

The best camp in the North, comprising the beautiful pleasure and productive mansion, belonging to Sr. Miguel Lima, the sale of which is caused by this gentleman's absence in Europe; it is sufficient to announce the slaughter of over 6000 sheep on the camp to give an ample idea of its value. Fattening camp with very abundant soft grass like granillo, cardo azual, alfilerillo, trebol de carretilla and olor.

To give an idea of the quality of the soil, suffice it to say that, when there is no pasturage on the adjoining camps, in this there are fattening 1700 steers and 6000 sheep, paying a dollar a head for cattleand 10 cents for sheep. This splendid camp of 1233 hectares, distant a league and a half from the Estacion Lima, F. C. Rosario and 30 squares from the village chacras and the Colonia Lima, bordering for some distance on the river Areco which joins the Barradero a few squares off and the Barradero joins the Paraana.

All this superb camp is perfectly fenced with 6 strings of steel posts and half posts of flumunibay every 5 varas and wiring in the centre. Divided into 4 potreros, each with a large trough, water deposit, cement trough etc.

In one potrero there are 100 hectares of alfalfa, 700 fruit and forest trees, eucalyptus magnolia, palms, gardens, etc. In a word, it is an Eden!

Attention, speculators and capitalists! Prepare for a surprise! Up to the present time there has never been such an important business with such an insignificant base. Base $325 the hectare. Absolute sale! We repeat that Sr. Lima is going to Europe. Remember that in the Saladó, lands have been sold ot $200 per hectare and $300 to 450 have been given for Centros Agricolas.

Recently in Pilar 150 cuadras of camp have sold for $1000. This notable business has 150,000 cedulas, series M. Comparatively, therefore, it can be had with little money. On the basis fixed, the purchaser can remain with the mortgage for the price of the cedulas, the day of the contract. The payment to be made half down and half at 3 months with 6 per cent. per annum.

For plans and further particulars apply at our office 153 San Martin. Those who desire to visit the camp will meet at the Lima station on the arrival of the first train a carriage which is at their disposition on Thursdays, Saturdays and Sundays. The auction will take place in our office San Martin 153 on **Thursday 14th March 1889** at 3 p.m.

Further particulars later.

MINISTERIO DEL INTERIOR

LICITACION

Para la construccion de la Estacion Central de ferro-carriles de la Nacion

Se llama á licitacion por el término de setenta dias para la construccion, por cuenta de la nacion, de la estacion central de ferro carriles en esta capital, bajo las siguientes condiciones:

1° La estacion será construida en los terrenos del puerto de la capital y paralelo á la linea de los diques proyectados, debiendo situarse la fachada principal con frente al palacio de Gobierno y la otra fachada mirando al dique designado en el plano del puerto con el número 3.

2° En todo lo que se refiere á la ubicacion en general y á las dimensiones principales de la estacion, vias etc.,—los planos que se presenten deben estar de conformidad con el proyecto, aconsejado por la comision especial y aprobado por el honorable congreso; de dicho proyecto pueden pedir cópia los interesados en el departamento de ingenieros.

3° Las vias de la estacion central, como las de acceso á ella, se construirán á un nivel de 5 á 6 metros mas bajo que el suelo general de las vias públicas y muelles, debiendo tanto los andenes, como el espacio delante de la estacion destinado para tramways y carruajes, ser cubiertos por techos de armaduras de fierro.

4a No será permitido la aplicacion de la madera para tirantes, vigas, columnas y armaduras de techos en el edificio de la estacion y sus dependencias.

5a El bajo nivel abierto de la estacion y vias de acceso será cerrado por puentes de fierro, piedra ó ladrillo en la prolongacion de cada una de las calles perpendiculares á la linea de diques.

6a Los andenes, techos, muros, paredes laterales, etc. deben ajustarse al perfil normal de espacio libre en estaciones en uso en los ferrocarriles de trocha ancha de 1 metro 676.

7a El edificio de la estacion se construirá en dos cuerpos simétricos separados por un pasaje de 20 metros de ancho. El ancho total del terreno ocupar se es de 106 metros; en éste están comprendidos:

Via de carruages, tramways, etc., de 15 metros.
3 andenes de 8 metres cada uno.
1 Anden de 5 metros.
1 Veroda de 6 metros y 16 vias de trocha ancha.

Los andenes tendran 210 metros de largo entre las vias.

8° Las cuatro mesas giatorias tendrá 14 metros de diametros cada una, debiendo tenerse presente al proyectar la estacion que ella será usado por 7 diferentes ferrocarriles.

9a El edificio de la estacion debe contener las localidades siguientes:

Sales de espera 1a y 2a clase, sala de espera para señoras, toilettes para señoras y hombres, restaurants y confiterias con sus cocinas y despensas correspondientes.

Boleteria de 1a y 2a clase para cada uno de ferrocarriles que haran uso de la estacion central.

Recepciones de encomiendas y depósitos.

Pieza para jefe de estacion y dependencias.

Idem para contaduria
" " trafico
" " fraccion
" " muvimiento
" " correos
" " telégrafo
" " policia
" " bomberos
Oficina tecnica;
Salas de sesiones:
Habilitaciones para los empleados de traccion;
Número suficiente de mingitorios y letrinas;

10a Toda la estacion sera prevista de alumbrado eléctrico.

11a La subida y bajada de las encomiendas se efectuará por ascensores hidraulicos.

12a El costo total de la estacion no deberá exceder de $5,000,000 oro.

13a Todos los gastos de construcciones, desagües y demás obras que deban ejecutarse para mantener en seco el terreno en que se construya la estacion y vias de acceso serán por cuenta de los licitantes.

14a No será permitido depósito alguno de aguas estancadas y cualquier sistema de desagüe que, con el objeto de evitarlo, sea necesario hacer ó mantener será indicado y ejecutado por los que contraten la obra.

15a Los pagos se harán de acuerdo con la ley de obras públicas y teniendo presente la ley especial número 2398 de 6 de noviembre último.

16a Las propuestas, planos y presupuestos deberán presentarse en un todo de conformidad con la ley de obras públicas en papel sellado de cinco pesos m/n., las primeras y acompañadas de un certificado de depósito en el banco nacional á la órden del ministerio del interior por el importe del 1 por ciento del valor de la, obra, antes del 1o de abril próximo, á las 3 p. m. dia y hora en que seran abiertas en presencia del escribano general de gobierno y de los interesados que quieran concurrir al acto.

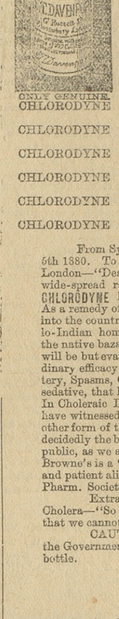
Dysentery, Cholera, Fever, Agua, Coughs, Colds, &c.



Dr. J. COLLIS BROWNE'S CHLORODYNE

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, crediting the invention was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. COLLIS BROWNE'S CHLORODYNE

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests these too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davenport, Esqr., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from the sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer

Rosario Market and Wharf Shares	—	—

The notable feature of to-day's business was the reaction and rally in National Bank stock. The hand of the bullish syndicate could already easily be traced in the stiff demand and advancing quotations of the shares, and there is no doubt now that the market will chime in with the movement, as the stock is the most valuable in the market, and, at present rates, undoubtedly the cheapest. However, the course of operations in the next few days will define what estimation is put on the stock by the market in general, though it is already palpable that however much the stock may advance a decline is out of the question. As for gold, it hangs on in pretty much the same state, the last rates keeping up to a level of 55 o/o, though the tendency is generally said to be weak. The gold magnates have retired for the present. They say that the gold is in bad hands and so refuse to buy back the heavy sums they disposed of until rates begin to drop back, which, most assuredly, they must do if anticipations prove correct. It is also said that no gold will be withdrawn for Montevidean account, as Dr. Reus's negotiations have fallen through. All this points to a fall for end of month, but the cash quotations seem so firmly set that it is hazardous to conjecture one way or the other until a more definite movement takes place. Matters all round, however, are improved, and there is more confidence in the situation.

Operations in gold at the first hour embraced over 1½ million, of which about a quarter of a million was done for cash, opening at 155.30, advancing to 155.50, and closing at 155.20. For Saturday speculation was unusually brisk, heavy amounts being sold from 155.30 down to 155, whilst for end of month, although the business was relatively small, only amounting to half a million, there was an abundance of sellers at 155, the rate closing down to 154.70, being 60 cents lower than for cash, which shows the tendency of the market; for end of March 330,000 were let go, opening at 155 and closing at 154.88. In stocks there was much activity in National Bank Shares, which were in brisk demand up to 265 for end of month and 267 for end of March. La Plata Moles closed up to 128.50 for end of month. Credito Real spurted up to 131.50 for same date, and one lot of Catalinas fetched 152.50 for cash. Constructors were neglected. Cedulas were firm and in demand.

The exchange market continues very flat, the rate being quoted to-day at 47 1/16d., 4.98 fcs. France and 4.99 Antwerp.

The following is a summary of operations effected this morning at the first ring:—

Things are looking black indeed for the next liquidation in the Mount if anticipations are to be formed on the report of the Committee named to examine the Obras Company's accounts. It seems that the only consolation that the Committee can give to the shareholders is that the shares are worth more than their actual quotation, which is about 32 o/o, and this is very poor consolation indeed for those who, having faith in the Company, hold their shares at some 8 to 10 o/o premium. The Committee judge the properties left by Reus to cover the 31,000 unauthorized shares to be worth about 2,114,523 dollars, or say about a million short of the value of the shares at par. They found also two "vales" of Dr. Reus as representative of the Argentine syndicate for 1,600,000, but the Board has no document to show Dr. Reus's authority to represent the syndicate. They also found another "vale" of Dr. Reus for 275,791 dols. With regard to the properties purchased by the Company, many were sold by Messrs. Podesta, Reus, Victorica, Costa and Torres, and one alone by Mr. Fernando Torres. The Committee recommend a radical change in the composition of the Board, but the disclosures are so shocking that public confidence in the business is completely shattered, and when confidence goes it is better to shut the doors and liquidate. It will be in point to recall the fact that at the last meeting of the Sociedad Territorial de La Plata, Mr. Gregory Torres, the chairman, stated that the Company's property represented a value in shares of at least 96 o/o, yet the stock to-day stands at about 11 o/o, and nobody cares to touch it at the figure.

The Hevelius sails to-morrow and takes a very heavy gold remittance. All sorts of rumours are current on 'Change about the amount, but as yet nothing certain is known. It will probably be from 220,000 to 300,000 pounds stg., and they say the Veloce steamers now are taking gold to Genoa.

Mr. Budge, manager of the East Argentine Railway, was welcomed on 'Change; also Mr. J. B. Gahan, who has arrived up from Mar del Plata.

The Italian s.s. Nord America has made the run out from Genoa in 16 days, with 1,200 passengers and 400 tons cargo. This is the quickest trip, we believe, on record. She brings dates from Europe to 5th inst. We congratulate Mr. Christophersen on this splendid trip; no other steamers trading between Europe and the Plate can for speed match the Nord America.

There was great anxiety to hear news from London about the Conversion Loan. It was currently rumoured that the subscriptions covered it five times, but we have seen no telegram to authenticate this. The price of issue is 90 o/o, not 92 o/o, as stated.

Money rules easier each day, and large sums were advanced to-day on stocks at 8 and 8½ o/o per annum. The market is, however, so stuffed full with every description of stock and shares that the capital in the market is taxed to carry such a volume of stock. National Bank Shares and Cedulas are about the best and easiest stock to borrow money on.

With much pleasure we state that the s.s. Munich is not coming out with another batch of Irish emigrants. She is loading for Baltimore.

The appointment was made known this evening of Mr. D. Salvatierra to the Board of the Riachuelo Works in lieu of Mr. Manuel Aguirre, who resigned.

The statutes of the "Sociedad Central de Arquitectos" were approved to-day by Government. The revised statutes of the Italia and La Protectora del Hogar were also approved.

The "Camara Sindical" have agreed to allow the quotation of the new O Provincial Cedulas, 8 o/o, which will be put in circulation by the Bank next month.

The National Bank discounted yesterday the round amount of a million dollars between gold and paper.

Incredals the sale is reported of 3,000 bags maize, inferior quality, of last crop, at 3.50 the 100 kilos, for the s.s. Alfonso XII. Some large contracts for next crop are spoken of, delivery to be made in June next, at prices ranging between 2.40 and 2.50, and one is spoken of for 50,000 bags to be delivered in San Pedro at 2.50 dols.

Circulars were handed round to-day from the "Compañia Popular de Seguros é Economias," a mutual aid society, of which the following gentlemen, whose standing and position need no comment, constitute the Board:—J. S. McLean, L. Ade Neyra, A. Bachini, A. Bonzi, J. G. Bru, E. E. Mendiola, and A. Tort. One of the provisions of the Company is that no one person can hold more than one share. The Company's offices are at 140 Defensa.

The Colon Saladero has sold for this market 10,000 novillo hides, 30½ kilos weight, to be delivered before end of March, at 17 dollars the 100 kilos.

The sale was effected yesterday at auction of the house property Buen Orden 668-678, upset price 70,000 dols., for 90,600 dols.; buyer, Mr. Joseph Forn. Mr. J. Volpi sold the Lozibi quinta in Los Olivos, containing 112,000 yards, to Messrs. Ruiz and Del Carril for 30 cents the sq. yard.

The sale of seven hectares of land with frontage on the Quequen Grande, in this town of Necochea, was reported to-day; price paid 155,000 Nats.

Matters were very quiet at the second hour, both in gold and stocks, the latter being very dull compared with the brisk animation of the morning. National Bank Shares opened at 265 and sank gradually to 263.50, at which they closed. There was little doing in the other values. The premium was a trifle weaker for to-morrow and firmer for end of month, the closing quotations being 155.20 for to-morrow, 154.90 for end of month, and 155 for end of March. The tendency, however, is still supposed to be for a decline in rates, which are considered high in the present state of the market.

The following is a summary of operations effected this evening at the second ring:—

Gold—

Keating's Lozenges
Oldest and best Cough Remedy "ANY DOCTOR WILL TELL YOU" there is no better Cough Medicine than CREATING'S LOZENGES. One gives relief; if you suffer from cough try them but once; they will cure and they will not injure your health; they contain only the purest drugs, skilfully combined. Sold everywhere in small tins and bottles.
